

**JACKSON ENERGY AUTHORITY
RESIDENTIAL GAS RATE SCHEDULES**

AVAILABILITY - GENERAL

These schedules are available to residential customers for domestic use in individual dwelling units. Private dwellings in which space is occasionally used for the conduct of business by a person residing therein will be served under this rate schedule. Where a portion of the dwelling is used regularly for the conduct of business, the gas consumed in that portion so used will be separately metered and billed under another appropriate gas rate. If separate piping, which permits separate metering is not provided by the customer, the entire premises shall be classified as non-residential and billed accordingly. The Residential Schedule shall not apply to service to multiple dwelling units or to institutions such as clubs, fraternities, orphanages, or homes; recognized rooming or boarding houses; the space in an apartment or other residential building primarily devoted to use as an office or studio for professional or other gainful purposes.

Gas supplied under this schedule is for the exclusive use of the customer and shall not be resold or shared with others.

Gas supplied under these schedules will be measured in units of one hundred cubic feet (CCF) corrected to a pressure base of 14.65 psig, then converted to therms based on the heat content of one CCF. Billing units will be therms.

JACKSON ENERGY AUTHORITY
PURCHASE GAS ADJUSTMENT RIDER

The Purchase Gas Adjustment (“PGA”) rider is applicable to sales customers taking service under Rate Schedules R-1, G-1, G-2 and OP-1. The PGA is designed to recover the cost of purchased gas or fuel used as a substitute for or supplemental to purchased gas. The Costs include the cost of gas or gas substitute, storage, transportation, transportation fuel and any other charges or credits under an applicable approved pipeline tariff.

The rate per therm for gas supplied during a billing period will be adjusted by the expected weighted average Costs projected for the future 12 month period beginning with the applicable billing month. Actual “Costs” will be compared to the “Costs” recovered under the PGA mechanism for the proceeding 12 month period. Any over recovery or under recovery will be “trued-up” during succeeding billing periods as a surcharge to the PGA.

The PGA will be adjusted on a monthly basis and will be made available on Jackson Energy Authority’s website.
